RM CRANE BODIES

WORKING HARD RUNS IN THE FAMILY.

Meet the RM-25 and RM-35 crane bodies. With the addition of these two new crane bodies, our hard-working lineup is ready to handle any challenge. We offer solutions for all your lifting needs, from residential construction to oil and gas, and more. Compatible with most leading cranes, these four crane bodies provide a lifting capacity ranging from 11,500 to 78,000 ft.lbs. They can come equipped with essential features, including a heavy-duty or torsion box understructure, a bolt-on or an integrated headache rack and dual outriggers. Backed by our national distribution network for service, parts, accessories and warranty, you can keep your operation running at its best. **It's everything you need to start picking up more work.**
